Projects

TimeFlow - Timesheet & Leave Management System | React, Spring Boot, MySQL, RabbitMQ, Docker Mar 2026 - Apr 2026

- Architected a full-stack workforce management system with seven Spring Boot microservices, featuring JWT authentication with role-based access control, OTP-based password recovery, and manager approval workflows for timesheets and leave requests
- Built a responsive React SPA with role-based protected routing and an admin dashboard; implemented event-driven email notifications across ten RabbitMQ queues, inter-service communication via OpenFeign, and containerized the entire stack with Docker Compose including MySQL, RabbitMQ, and Zipkin for distributed tracing

BiteWise - Smart Food Tracker | HTML, CSS, JavaScript, Firebase, Node.js, Express.js, and Gemini AI API Jul 2025

- Developed a smart food tracking web application with meal logging functionality, ingredient inventory management, and AI-powered nutritional analysis using Google's Gemini API for automated macro estimation
- Implemented real-time data persistence with Firebase Firestore for user-specific meal history, anonymous authentication system, and backend deployed on Vercel

Restaurant Website | React.js, Node.js and REST API Jul 2024

- Developed a restaurant website with dedicated sections for the menu, reservation allowing users to reserve their table, the about page and the contact page
- Implemented an online reservation system with real-time validation, a backend API for data handling, and clear feedback messages for successful or failed reservations

Training

Full Stack Web Development by Techvanto Academy Jun 2024 - Jul 2024

- Gained hands-on experience in developing dynamic web applications using front-end (HTML, CSS, JavaScript) and back-end technologies
- Learned to design, implement, and manage relational databases for efficient data storage, retrieval, and optimization

Certificate

- Cloud Computing by IIT Kharagpur (NPTEL) Jul 2024 - Nov 2024

Co-Curricular Activity

- Salesforce Agent AI Workshop – Lovely Professional University Aug 2025
 - Gained hands-on exposure to building AI-powered autonomous agents within Salesforce to automate tasks, improve customer interactions, and optimize workflows

Extra-Curricular Activity

- Community Development Project – The Vegetable Grower's Cooperative Society Jun 2023
 - Collaborated with an NGO on a 2-week community project, gaining hands-on experience in sustainable orchard management and teamwork

Skills

Languages: Java, JavaScript, Python, C++, SQL

Frameworks: Spring Boot, REST API, React

Tools/Platforms: MySQL, Docker, Git, Swagger, RabbitMQ

Soft Skills: Problem-Solving, Team Collaboration, Analytical Thinking, Adaptability

Education

Lovely Professional University

B. Tech in Computer Science and Engineering: **CGPA: 8.27**

Punjab, India

Since Aug 2022
